OBJECTIVE

Aspiring technology professional with a strong foundation in software development, data analysis, and cloud-based systems. Proficient in SQL, JavaScript, and modern web technologies, with hands-on experience in building scalable applications, working with databases, and implementing CI/CD pipelines. Demonstrates the ability to analyze data, solve complex problems, and optimize system performance. Eager to contribute to innovative projects while continuously enhancing technical and analytical skills.

EXPERIENCE

December 2025 - April 2026

- **DevOps Engineer Intern**
  Restroedge Private Limited
  - Deployed and managed containerized applications using Docker, improving deployment efficiency
  - Worked with AWS EC2 & S3 for cloud-based application hosting
  - Implemented CI/CD pipelines, reducing manual deployment effort
  - Monitored system performance and ensured high availability
  - Resolved deployment issues, minimizing downtime
  - Collaborated with development teams to streamline release cycles

July 2025 - Aug 2025

- **Java Full Stack Trainee**
  Vinayak India & Overseas
  - Developed full-stack applications using Java and web technologies
  - Implemented backend logic and handled database operations
  - Strengthened problem-solving skills through real-world development tasks

EDUCATION

2022-26

- **Deenbandhu Chhotu Ram University of Science and Technology, Murthal**
  Bachelor of Technology

2021-22

- **Maharshi Dayanand University, Rohtak**
  Bachelor of Science

SKILLS

- HTML5
- CSS3 , Tailwind CSS
- JavaScript
- Node.js
- jQuery
- React.js
- AWS
- Docker
- DevOps
- Git
- SQL
- JDBC

PROJECTS

- AI Impact Reporting Generator
  - Developed a data-driven reporting system to calculate environmental impact
  - Used database queries (SQL) to compute carbon reduction & plastic savings
  - Generated automated reports for analysis and decision-making

- AI Auto Category System
  - Built an automated product categorization system using JavaScript
  - Improved data organization and search optimization (SEO tagging)
  - Designed scalable logic for handling large datasets

- User Management System
  - Developed authentication and role-based access control system
  - Implemented CRUD operations with database integration
  - Optimized data storage and retrieval performance

ACHIEVEMENTS & AWARDS

- Programming with Python – Internshala
- Java Full Stack Development – DUCAT
- DevOps Training – DUCAT

INTERESTS

- Travelling and exploring new places and cultures

TRAINING

- Web-Devlopment(Java Full Stack) - DUCAT
  - Built responsive web applications using HTML5, CSS3, JavaScript, and Bootstrap.
  - Applied UI/UX principles and modern front-end development practices.
  - Implemented form handling and basic backend functionality.

- DevOps - DUCAT
  - Gained hands-on experience in CI/CD pipelines using Git,Docker during real-world
  - project work.
  - Implemented containerization and deployment strategies for scalable
  - applications.
  - Worked with AWS services to deploy and manage cloud-based applications.
  - Automated build and deployment workflows, improving efficiency and reducing manual effort.
  - Managed environments and ensured smooth application deployment and
  - monitoring.
